	FM 6-0	COMMANDER AND STAFF ORGANIZATION AND OPERATIONS	Yes	No

Condition: The command receives a report of civil disturbances within the area of operations. The command is conducting normal operations stated within the published operations plan, warning, operations or fragmentary order. The command establishes communications with subordinate and adjacent units, and higher headquarters, and the mission command system is operational and processing information. The command identifies Commanders Critical Information Requirements and Serious Incident Report requirements. Some iterations of this task should be performed in MOPP 4.

Standard: The command reacts to civil disturbances following the commanders guidance and standard operating procedures. The staff receives the initial report and immediately informs the command and higher headquarters and conducts hasty mission analysis, alerts and deploys quick reaction force, informs all relevant stakeholders, continuously monitors the situation, and updates the common operational picture.

Safety Risk: Low

Task Statements

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All soldiers have the responsibility to learn and understand the risks associated with the task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations and activities is the responsibility of all Soldiers.

Notes: None

TASK STEPS

1. The Staff receives initial report of civil disturbance in the area of responsibility via mission command systems and immediately:
 - a. Communicates attention in the command post and announce the civil disturbance incident.
 - b. Informs Commander, Chief of Staff (COS), Deputy Commanding Officer (DCO), and/or Executive Officer (XO) of the civil disturbance incident.
 - c. Enters report into event log on mission command system.
 - d. Conducts mission analysis to identify courses of actions and priorities:
 - (1) Identify actors responsible for the incident and what their goals/capabilities are.
 - (2) Identify the actors' most likely course of action and most dangerous course of action.
 - (3) Identify critical socio-cultural impacts to operations.
 - (4) Identify reconnaissance assets to increase situational awareness.
 - (5) Obtain legal guidance from the staff judge advocate on operational mandates, status-of-forces agreements, status-of-mission agreements, and other restrictions.
 - (6) Identify conflict with current or future operations.
 - (7) Determine actions needed to resolve the incident peacefully and within the commander's intent.
 - e. Monitor for further reports.
2. The Staff informs Higher Headquarters (HQ) and all major support commands by:
 - a. Drafting the Size, Activity, Location, Unit, Time and Equipment (SALUTE) report to higher HQ.
 - b. Drafting the Size, Activity, Location, Time (SALT) report to higher HQ.
3. The Staff performs parallel planning with the Division Provost Marshall Office and other Military Police assets to:
 - a. Determine host nation and local law enforcement security capabilities.
 - b. Identify security measures for key facilities and critical assets.
 - c. Confirm the rules of engagement.
 - d. Identify reserve or response forces, medical evacuation areas, and detained person holding areas.
4. The Staff directs neighboring unit liaisons to analyze the situation for possible impacts on their units.
5. The Staff briefs the Commander, COS, DCO, and/or XO on the courses of action.
- * 6. The Commander disseminates his guidance and directs, leads, and assesses.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. Environmental protection is not just the law but the right thing to do. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT.

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
